1328 Monroe St.,

ALTON, ILLS., April 22nd, 1894.

I have been a great sufferer for about

five years from miscarriage. I had back-ache and when I lay down I could

hardly get up again. Since I have been

taking McElree's Wine of Cardui, how-

ever, I feel like a different person. I

thank God I ever heard of Wine of

Cardui. It not only saved my life but

has brought me safely to within a few-days of confinement. I have only used

two bottles, and am glad to tell all suf-

ferers what the Wine has done for me.

Mrs. JOSHUA J. CRAIG.

ALTON, 1115., March 25th, 1896.

I have had many letters from ladies

all over the country asking me about

McElree's Wine of Cardui, and I tell

every one of them that it is the best med-

icine made for women, and cured me

sound and well. I have received so

much benefit from Wine of Cardui I am

glad to do all I can to bring it to the at-

tention of other women who suffer, I

Mrs. JOSHUA J. CRAIG.

have induced many to take it.

IMPROVEMENT IN SHARES BOTH FOR THE DAY AND WEEK.

Industrials are the Day's Center of Activ. ity, With Manhattan Most Aggressive Advancing and Taking General Electric Along With It-Realizing in Tobacco Rise in Grangers-Close at General Imrovements - Bow the Professionals Have Worked the Political Situation

During the Week-Bonds New York, May 23.-The industrials were, as a group, the point of activity, today, but the greatest aggressiveness was displayed by Manhattan. The deision of the supreme court against the constitutionality of the rapid transit act has caused a decided reversal of sentiment regarding the stock, particularly as the financial community at large had not expected any such action The stock was bought for both accounts causing an advance of 2% per cent, to 10714 per cent. General Electric was favorably affected by the decision also. as the prospect of a remunerative contract with the Manbattan is considered to have been greatly improved thereby. Bullish gosstip as to probable widening of the scope of the company's operations is also current. The result was an advance of 2% per cent. Consolidated Gas and the Cordage shares stiffened sharply and higher quotations were noted for other industrial properties, Cartwright, McGnire, Demont, Three se hits—Abbey, Stolen bases—Dahla, Flynn, Terry, Rogers, Demont, Sel.

NEW YORK BANK STATEMENT. New York, May 23.-The Fmancier statement of the Associated Banks of Viewed in the light of the expansion which has been noted in that item of late, the sudden falling off is not carried explanation. It does not seem probable that the checks shown on the current expansion will be more than temporary, since the increase of only \$21,000,000 this season compares with a total expansion of \$42,000,000 last year, made during a period covering about 25

The contraction of the current week and indicates further heavy exports of gold soon. The banks gained in cash during the week \$2,885,500. This gain is in the face of exports of \$2,700,000. The advance in the price of domestic exchange at the larger commercial cen-ters indicates that the movement has not run its course yet, although the southern banks are now coming into the market for loans.

Fall River, Mass. May 22.—Sales in the print cloth market have been light during the week. The demand has been fair to moderate but manufacturers were slow sellers. The demand extended into August for small dis, but during most of the week the demand has been nearly all confined to June deliveries. Odds are still at a slight advantage over regulars in selling. Almost no regulars were sold. This of itself is sufficient notice to fi any three audience rooms in the cit The well known reputation of this Sur day school, which is said to be th largest west of the Missourt river, wit its able corps of teachers, its enterpri ing superintendent, and aided by th Shaw orchestra and with the practic

Most of the selling was for June. There were small sales for July and August. A quarter of the sales were spots and the few regulars were spots on very early deliveries. The market is firm at 29-16c and manufacturers want better prices before they will sell any amount of goods. There is a moderate demand for June. The stock increased 21,000 pieces, all of that in crease and more coming in regulars, as odds fell off a little in stock.
